NORTHERN TRIBUNE.

Entered at the Postoffice at Cheboygan Mich., as Second Class Matter.

THURSDAY, SEPTEMBER 11, 1884.

Republican Senatorial Convention.

A Republican convention, for the purpose of nominating a candidate for Senator for the 29th District, will be held in Cheboygan at 10 a. m. Sept. 17th, 1884. Each county will be entitled to the same representation as at the state convention.

By order of committee.

ZEB M. KNIGHT,
Chairman.

Alpena, Sept. 1st, 1884.

THE CITY.

The Atlantic took on 300,000 lath at Duncan City Tuesday for Ohio ports.

Edward Gallagher will soon open the Spencer House as a \$1.00 per day house.

The number of scholars in the graded school is increasing, each room having from 45 to 60 pupils.

W. C. Thompson goes to Mackinaw City next Monday to take charge of the school in that village.

John Hetherington, fell on one of the wheels of his wagon last Saturday, fracturing one of his ribs.

Stranger, Mollie Harris, and Wm. T. are all to take part in the races at the Illinois State fair this week.

The Republican Senatorial Convention for this district will be held in Cheboygan Wednesday of next week.

The wrecking tug Leviathan with the propeller J. L. Hurd in tow, arrived at Milwaukee Monday evening. The latter went into dry dock for repairs.

The Democracy to the number of 25 or 30 met in the council room Monday night and took preliminary steps toward organizing a Cleveland and Hendricks' club.

P. H. McDonald has given up the Cass House and moved his stock of liquors into the south room of the Goulden block. James McGuire will be the dispenser of liquors.

Merritt Chandler visited his farm last week and in among his beans he found a stool of barley that had grown from one grain that contained twenty-eight well developed heads.

A young lad named Lovelace, residing in Pattersonville, while playing with some comrades on some lumber last Sunday fell off and dislocated an elbow. Dr. C. A. Perria was called and put the limb into shape.

Raid & Co. have leased the room in Dan McLeods building next to the post-office and are going to repaint and refit it for their grocery store. It is one of the best locations in town. They will move some time before Oct. 15th, at which time their lease of their present stand expires.

The bills of the First National bank of Cheboygan, arrived Monday evening, and President McGinn and Cashier Raynolds are putting in their spare moments attaching their autographs to the same preparing to put them in circulation. They are of two denominations, \$10 and \$20.

Last Saturday F. S. Abbott brought to the TRIBUNE office a fine bunch of strawberries being a second crop on the vines that he planted last April. The largest one on the bunch he says ripened and fell off before the remaining berries got ripe, but those left were of good size and delicious.

Wm. Gaimor is one of the successful farmers of Cheboygan county. He has a farm of over 200 acres in the Black River region, a large portion of which is under cultivation. A gentleman who was in that section this week says Mr. Gaimor has a most promising young orchard, about 125 apple trees bearing and loaded with fruit.

G. P. Langdon took a drive out towards Riggsville Sunday and says he is surprised at the quantity and quality of apples to be seen in many young orchards he passed. The trees were so full that the limbs had to be propped to keep them from breaking off. It is only a few years since it was claimed that it was useless to try to raise apples in this section, but it has been demonstrated that for apples, Cheboygan county is equal to the best county in the state.

The engine recovered from the propeller Canisteo is being taken apart.

Rev. A. W. Westgate will preach at the Baptist church next Sunday morning. There will be no services in the evening.

The prospects are that the stock of log to be got out this winter in this section will not be as large as was put in last winter.

"A good understanding" is what Westgate & Sons wish the people to have, and instruct them how to obtain such in their ad. in this issue.

Builders will find an advertisement elsewhere for proposals to build an addition to the school house in district No 3 township of Benton.

Samuel Kinnear cut one of his hands seriously last Saturday on broken glass. Dr. Perrin dressed the wound but Sam will be a little more careful hereafter.

Attend the skating rink Monday and Tuesday evenings of next week and see the wonderful bicycle performances of Clarence H. Smith and Minnie Roschelle.

A small child of Jonas Wheeler was run over Tuesday evening on Main street. The child was pulled out from under the heels of the horse and strange to say uninjured.

A handsome and artistic granite monument was received on the City of Mackinaw Monday to mark the last resting place of our late fellow citizen John C. Mulvaugh.

Captain S. B. Grummond has bought the Truseott dock at Mackinac Island, and is putting it in thorough repair. He will build 100 feet more to its length the coming winter.

H. Chambers returned from Detroit the first of the week and from the number of boxes, rolls, etc., landed at his store we should judge he made some extensive purchases during his absence.

The weather for some time past has been hot enough to make a native of the torrid zone feel at home in this section. However the extreme heat disappears with the sun and the nights are refreshing.

The Cass House has been let to St. Ignace parties, who will take immediate possession. P. H. McDonald will continue the livery and hack business and will also engage in the lumbering business quite extensively.

The east side has been getting away with the west side of the village in the way of building this season. Quite a number of residences have been put up on that side, some of them quite pretentious both as to size and style.

The Grand Rapids and Indiana R. R. will sell tickets to the state fair at Kalamazoo, Sept. 15th and 19th, and to the Western Michigan fair at Grand Rapids Sept. 22nd and 26th for one fair for the round trip, from all stations on their road.

At the races at Racine, Wis., on the 3d inst., Stranger won first money and Mollie Harris third in the 2:23 race. Mr. Humphrey was not aware that Mollie would be entered until he received a telegram announcing the result of the race.

The cut stone for the water table, etc. for St. Mary's school arrived last week and the masons commenced laying brick Monday afternoon. The masons are from Bay City. Two more are expected soon and it is the intention to push the work as fast as possible.

Joseph Carrier, formerly of Detroit, arrived last Monday and took a position in H. Chambers' store. He is a young man of considerable experience in the dry goods business and will be pleased to meet the citizens of this section and make their acquaintance, at Mr. Chambers' store.

Cheboygan possesses as smart sawmills as can be found in any section of the country. Last Monday Packard's mill, with one circular, out of an ordinary run of logs, cut 56,017 feet of inch lumber, by actual scale, in their regular day tour. They would have sawed fully 60,000 feet if the logs had been larger.

Last Saturday we received the valedictory from Editor Mosher, of the Straits Journal, at Mackinaw City. Mr. Mosher made a good paper, but the support received would not warrant its continuance, and he announces that the material will be moved to Wayland, Mich., where he will start the Wayland Globe, with "Born to Live" as his motto. We wish brother Mosher success in his new venture.

Rev. Richard Jones, treasurer of Victoria College, Cobourg, Ont., will preach in the M. E. church next Sunday evening.

Watts S. Humphrey is in Chicago taking in the Illinois State fair and races. His interest, however, centers in the races, his horses being entered and he hopes to see them win.

Charles L. Frost, brother of George and Fred arrived in Cheboygan last Saturday and remained until Tuesday evening when he and his wife left for their home in Grand Rapids.

Last week a locomotive was dispatched from Mackinaw City after Dr. T. A. Perrin to attend a man named Buckby, nightwatchman at the M. C. round house at Mackinaw City, who was suffering from a severe attack of cholera morbus. The Dr. says they made good time and he succeeded in relieving the man.

Mr. Kilbourn, the man, who purchased the O'Beir shingle mill at Wolverine removed it to Petoskey. Mr. Haven the Bay City man who tried to remove it on Sunday, a couple of weeks since, sent up officers to Petoskey to replevin the machinery. They captured it but could not get bonds and therefore had to let it go again.

If Albert Paek will submit his case against C. F. Gibson to Judge Emerick, of the Alpena circuit court (and he may employ the imaginative Maxwell to prepare it), and have it argued by Robert J. Kelley, if Mr. Paek will go on the stand the Tribune will pay the costs if the judge does not laugh him out of court and enter "no cause of action" in the docket.—Bay City Tribune.

Messrs Gero & Smythe proprietors of the skating rink have made arrangements with Clarence H. Smith, champion bicyclist of the northwest, and M'le Minnie Roschelle, champion lady rider, to give two exhibitions of their single and double fancy bicycle riding at the skating rink, Monday and Tuesday evenings of next week. Their testimonials from the press are very flattering.

To-morrow evening the Cheboygan brass band will give a moonlight excursion on the steamer Flora to Spectacle Reef light and return. The boat will leave her dock at 8 p. m. sharp, calling at Duncan City and will return at 12:30. There will be dancing without extra charge. Tickets—gents, 75 cents, ladies 50 cents. It will undoubtedly be the pleasantest excursion of the season and the boys should reserve a good benefit.

Messrs. Kitchen, Snow and Dodd have failed to recover the boiler of the propeller Canisteo by the pumping process. They returned Monday night to make different arrangements to get it up. They say they could pump the water down 10½ feet in a short time, but beyond that they could not reduce the water. They now propose raising it with two lighters, with timbers across them, using chains and screws, raising it until they can work it into shallow water, when they are satisfied they can pump it out without difficulty.

John J. Bagley, ex-Governor of Michigan previous to his death, requested that his monument should be of Michigan stone. Last week the tug Oswego and barge Vampire, of Grummond's line, came up to the Schneck after a large boulder of granite, to be used for the purpose, and was in this port with it Friday, bound down to Detroit. The stone was estimated to weigh from 18 to 20 tons. It was taken from its position and loaded on the barge in less than 24 hours. The tug and barge left for Detroit Friday afternoon.

Lightning gave the Spencer House a call last night doing considerable damage. It struck the flag staff on the cupola, followed it down breaking nearly every light of glass in the observatory, then took the tin valley on the south west junction of the two buildings, down the corner tearing off the siding and breaking more or less glass out of nearly every window in the south side of the building, tearing off plastering in a number of the bed rooms, playing havoc in the wash room and scattering things around generally. It is a wonder some of the inmates were not injured. The splinters of the flag staff and cupola were scattered over the street and in the yards for over 100 feet around the building. When it struck a perfect stream of fire was seen to run down the roof of the building. Not a vestige of the telephone wire from where it left the pole in front of the building remains.
